

56. Britney jogs 4 times around a track. It takes her 3 minutes to run the first lap, $3\frac{1}{2}$ minutes to run the second lap, 5 minutes to run the third lap, and 8 minutes to run the last lap. Which statement **best** describes her running?
- E) She runs faster on each lap.
 - F) It takes her longer to run each lap.
 - G) It takes her 5 minutes longer to run the 3rd lap than the 1st lap.
 - H) It will probably take her 8 minutes to run a 5th lap.
