Preparation
Career Pathways

Easton Area High School
Easton, Pennsylvania

Technical Preparation Career Pathways.

- Accounting
- Administrative Assisting
- CISCO Networking Academy
- Child Care/Guidance
- General Office
- Production Industries Tech

Tech Prep Career Pathways will help students focus on mastering skills and gaining knowledge to enter into a post-secondary college or technical school. The advantage of taking the courses recommended is that students may gain advanced standing and or college credit by demonstrating skill competencies in high school.

Easton Area School District Tech Prep Program is a series of electives that have been state approved and have articulation agreements with Northampton Community College, Allentown Business School and Penn College of Technology.

Students choosing the Tech Prep Program may be in academic courses at the Honors, College Prep or Applied levels. Students enrolled in Tech Prep should complete two years of high school algebra and one year of geometry.
