

Before/After Care for Shawnee and March Elementary

Before/After Care for Shawnee and March Elementary Schools:

Parents have inquired about whether or not before and/or after care will be available for students at the Shawnee and March elementary schools when they open for the 2009-10 school year. Currently, both schools are under construction and scheduled for occupancy sometime in late August.

Unfortunately at this time, no provider has been secured and, due to the opening of the new buildings,

before and after care will not be in place to begin the 2009-10 school year.

Parents are advised to make other plans with regards to their child's before and/or after care.
